

complimentary services

cyberSuite is your partner in cyber. Our highly skilled and experienced team deliver high-quality and practical cyber advisory and privacy services that help businesses manage and reduce their cyber risk. We work in partnership with our related company Emergence to provide their policyholders who purchase the Emergence CEP-005 policy the services outlined below at no cost to the policyholder.

COMPLIMENTARY SERVICE	HOW TO ACCESS
 <p>vcISO Trusted Advisor Bespoke advice and resources provided by cyber and privacy experts to assist business managers in understanding and reducing their cyber risks. Examples of bespoke work may include: cyber security strategy development, policy document review, response plan development, etc.</p>	<p>Policyholders can book their complementary hour of consultation online.</p> <p><u>BOOK NOW</u></p>
 <p>Incident Response Plan Template In case of a cyber incident, every second counts. We provide a guide to developing your own Incident Response Plan (IRP) that can be tailored to your organisation. Privacy regulators recommend businesses have an IRP.</p>	<p>To receive their IRP guide, policyholders can contact our team at:</p> <p>Email: info@cybersuite.com.au</p>
 <p>Real-time Cyber Threat Notification Real-time monitoring of cyber threat intelligence sources to provide businesses with early notifications of detected exploitable vulnerabilities.</p>	<p>When insured with Emergence, business web domain details are monitored and this service is automatically provided.</p>
 <p>Dark Web Monitoring Using Dark Web Monitoring tools, our threat intelligence team will identify if and when your organisation's data is shared on the dark web. If it is detected, we will notify you so that you can take appropriate action.</p>	<p>When insured with Emergence, business web domain details are monitored and this service is automatically provided.</p>
