BUILD YOUR TEAM'S CYBER READINESS

cyber training

cyberSuite

Boost your team's responsive skills and step into cyber education confidently with our practical scenario-based training sessions. Choose from brief, high-impact 1.5-hour workshops to comprehensive half-day exercises designed for Boards, senior managers and crisis teams.

Bespoke Tabletop Exercises
Engage in face-to-face, scenario-driven sessions, customised for your top business leaders. Test your response plans and simulate real-life decision-making, ensuring your team is ready for any cyber threat

SME Cyber Tabletop Exercise
Join other business leaders for a tabletop exercise based on a industry-relevant scenario. Participating business leaders from multiple organisations will role-play key positions of a fictional company to experience responses and decision making during a cyber incident.

SME Cyber Incident Response Tutorial
Discover how to navigate a cyber incident with our remote tutorial specifically for SMEs. We'll guide you through a realistic scenario, demonstrating critical responses, and decision-making processes crucial for effective incident management.

MITIGATE CYBER THREATS WITH AWARENESS TRAINING

One of the most powerful cyber security tools is your staff. From e-learning to engaging presentations, our options will help boost your employees' cyber awareness and with it, mitigate cyber threats to your business.

Cyber Awareness Training Program
Engage your employees in a regular, tracked and customisable e-learning program. Utilising modern learning techniques, it delivers easily consumable modules, ensuring your team is alert to common threats.

Cyber Awareness Presentations
Discover how to navigate a cyber incident with our remote tutorial specifically for SMEs. We'll guide you through a realistic scenario, demonstrating critical responses, considerations, and decision-making processes for effective incident management.
